

Products That Really Work!

	<p>Cortaflex® Powder 456g & 908g</p> <p>Regular Cortaflex® Powder It's never too soon! Fortified with Hyaluronic Acid, Cortaflex® Powder economically and effectively supports and maintains healthy joints for each and every horse and pony throughout their life.</p>
	<p>Cortaflex® HA Solution and Powder 946ml & 450g</p> <p>High Strength Cortaflex® with Hyaluronic Acid It's never too late! Specially formulated for competition horses and ponies, and for those with excessive wear and tear to their joints.</p>
	<p>Better Bones Pellets 3.5kg</p> <p>For Strong, Healthy Dense Bones The skeleton is the foundation of the body, which provides support, protection for the organs, levers for movement and acts as a mineral store for the body. Bones will naturally adapt to the stress created by work or exercise by becoming denser where loading is greatest, if the correct vitamins and minerals are not available bones will become weak or brittle increasing the risk of injury or fracture. In brood mares, if sufficient levels of bone developing vitamins and minerals are not available stores within her own bones will be used to create the skeleton of the foal.</p>
	<p>More Muscle Solution and Pellets 946ml 908g</p> <p>For Optimum Muscle Capacity and Condition More Muscle is a powerful Rice Bran Extract supplement that helps to increase muscle capacity and condition, transforming your horse's 'top line' in a month. Generally a short term supplement, More Muscle should be used in preparation for the show or dressage season, to prepare a youngster for sale, or to provide daily strength to the show jumper, eventer or racer with optimum muscle capacity for maximum power.</p>

	<p>Magnitude Powder 908g</p> <p>For a more Relaxed Horse</p> <p>Magnesium has many roles within the body including the health of nerve endings and fibres, and reduction of magnesium in the diet may show in a horse as tension or nervousness. Magnitude is a highly absorbable form of Magnesium that should be fed daily to horses or ponies to promote healthy nerve tissue and reduce nervous tension.</p>
	<p>No More Moods Solution 946ml</p> <p>'Nightmare to Nice Mare'</p> <p>Hormone imbalances in mares can lead to 'stropy', unwilling behaviour, sometimes making a horse difficult to handle and resulting in a reduction in performance. No More Moods contains liquid Chaste Berry, a plant which has been recognized for many years for its benefits in supporting correct hormone levels. Use No More Moods daily to turn your 'nightmare into a nice mare'.</p> <p>No More Moods has also been used successfully on aggressive stallions.</p>
	<p>So-Kalm Plus Powder and Paste 908g</p> <p>Reduce Stress, promote calming and Improve Concentration</p> <p>Horses can experience nervousness and tension before exercise or competition causing them to misbehave or 'wash out'. So-Kalm Plus contains a premium grade Magnesium with L-Tryptophan, an essential amino acid associated with the production of serotonin, to calm and focus the horse, fed daily can aid concentration and willingness to work, but without removing the edge required for competition.</p> <p>Young horses also have a tendency to be highly strung and distracted, leading to training problems in the future. Feed young horses or horses in their first season So-Kalm Plus to enable them to relax and ensure that their new experiences are good experiences.</p>
	<p>Sand-Out Pellets 2.24g</p> <p>A Digestive Aid for Horses or Ponies Grazing Sandy Pastures</p> <p>Soil and pasture varies greatly throughout the UK. If a horse grazes on a sandy pasture, small amounts of sand and dirt will inevitably be ingested which, over time, may build up in the gut.</p> <p>Sand-Out contains multi active fibre in the form of Psyllium Husks. As Sand-Out passes through the digestive tract, the microscopic hooks on the Psyllium Husks effectively scoop up the sand particles, and along with effective system lubricants, help them to pass through the digestive system.</p>

	<p>U-Gard Plus® Pellets 1.6g</p> <p>For Total Gastric Health As a result of the environment, work and the feeding regimes that domestic horses are exposed to, the stomach can become irritated and sensitivities can occur. This results in a loss of condition and performance. U-Gard Plus® contains ingredients to soothe and coat the stomach providing support against these stresses.</p>
	<p>Hoof Magic Solution 946ml</p> <p>Daily Protection for Hooves Against Cracks and Brittleness The environment in which horses are kept is full of abrasive materials and artificial surfaces that may damage the hoof wall leading to cracks and brittleness. A balanced diet is essential for good hoof growth and condition but in this corrosive environment this may not be enough. To help protect against these elements, feed Hoof Magic Solution daily to encourage strong, healthy hooves.</p>
	<p>Hoof Power Plus® Powder 908g</p> <p>Increase Growth and Improve the Condition of the Hooves Hoof Power Plus® is a daily supplement containing ingredients, including 25mg of Biotin per serving, to stimulate hoof growth and support quality horn</p>
	<p>Lamigard® Powder 454g</p> <p>For Horses and Ponies Prone to Laminitis Lamigard® is a highly effective supplement for the horse or pony prone to Laminitis, and can be used at high levels in the short term, and at a maintenance level for long term health. Lamigard® will ensure your horses feet stay healthy all year round and will complement a careful feeding regime.</p>
	<p>ASU Pellets 908g</p> <p>The latest development in joint care ASU or Avocado and Soyabean Unsaponifiable is the latest development in joint care and is an invaluable addition to Cortaflex or Cortaflex HA. ASU works within the joint to promote a clean environment, maximizing the effects of Cortaflex. ASU is a must for young horses in work, horses recovering from injury and those who are involved in concussive activity - jumping and galloping.</p>
	<p>Buteless® High Strength 946ml & 3.8ltr</p> <p>A Powerful Natural Alternative Buteless® High Strength is a natural and palatable formulation containing botanical extracts, providing a powerful natural alternative that can be used in the short or long term without concerns of side effects. Buteless® High Strength can be used alone or in combination with Cortaflex for long-term concerns or for additional support for the older horse.</p>

For more information on any of our range, please call Mike or Chris on 01844 355800 or visit our store at Manor Farm, Chinnor Hill, Oxon. OX39 4BG.

	<p>Glucosamine 10,000 plus MSM 900g</p> <p>Strength, Purity and Price If it's Glucosamine you want, compare the strength, purity and price to any other Glucosamine product on the market – you won't beat it.</p>
	<p>Kentucky Liquid Joint Supplement 946ml</p> <p>Liquid Chondroitin and Glucosamine PLUS MSM, Vitamin C, Bromelain, Hyaluronic Acid and ASU</p> <p>At under £20 for a two month supply (or an average horse) Kentucky Liquid Joint Supplement is probably the most affordable joint supplement on the market. It is so fast and effective that we at Equine America think that apart from our clinically proven Cortaflex it is probably the most effective joint supplement on the market. If your horse is already on Cortaflex then we recommend you stay on it, but if you are using an alternative to Cortaflex to save money, the upgrade to Kentucky Liquid joint supplement and save more money! You will be amazed at the difference to your horse and your pocket.</p>
	<p>Lubric8 473ml</p> <p>Hyaluronic Acid is a major component of synovial (joint) fluid essential for smooth working of the joints. Lubric8 contains a low molecular weight Hyaluronic Acid for maximum absorption, providing extra lubrication when needed.</p>
 	<p>Airways® Solution 473ml</p> <p>To Open the Airways Prior to Competition or Hard Work Airways® Solution is a glycerine-based pre-competition mouthwash with menthol and honey to coat and dilate the airways and encourage maximum airflow.</p> <p>Airways® Xtra Strength Powder 454g To Aid Upper Respiratory Health and Promote Clear Breathing With its powerful aroma, Airways® Xtra Strength Powder opens the airways and eases breathing.</p> <p>Airways® Xtra Strength Powder should be added to the feed daily for horses stabled for long periods or those who are experiencing low level congestion, or irritation from dust in bedding and hay.</p>
	<p>Bleeder Gard® Powder 908g</p> <p>Essential Support to the Lungs and Blood Vessels Oxygen is taken into the body through the lungs and then transported through a net work of blood vessels to the muscles. As exercise increases, so does the pressure on these two systems, which becomes even greater when the horse is asked to run at high speeds or jump obstacles.</p>

	<p>Apple Lytes Granules and Paste 1.8kg 6.8kg 30ml</p> <p>The Only Electrolyte for Your Horse or Pony As horses work and sweat they lose vital electrolytes and mineral salts. At low levels these can be replaced with Sodium Chloride (salt) but, if the horse is in medium to hard work and sweating on a daily basis, an electrolyte supplement must be provided. Without electrolytes, the horse will feel lethargic, and a continuation of this loss is highly detrimental to the horse's health.</p>
	<p>ProPell Plus® 946ml 3.8ltr</p> <p>Iron Rich Vitamin and Mineral Tonic High levels of work and competition can leave some horses feeling 'flat' and without their 'sparkle'. ProPell Plus® is a daily tonic designed to increase energy levels, acting as a 'pick me up' for horses. Its iron rich formulation will provide energy with beneficial vitamins and minerals, leaving the horse fresh and full of vitality.</p>
	<p>Top Form Pellets 1260g</p> <p>Provides Daily Vitamins, Minerals, Pre-biotics and Trace Elements The popular product VMP has had a revamp to provide even greater value, whilst still maintaining top product performance. Top Form is a complete supplement for all horses, containing top quality vitamins, minerals, pre-biotics and trace elements. Top Form is an easy to feed palatable pellet, which is ideal for both stable and field kept horses.</p>
	<p>V-Biotic® 908g</p> <p>More Than Just a Feed Balancer! Super concentrated V-Biotic® - a premium grade, broad spectrum product which has been specially formulated to provide a comprehensive balance of essential vitamins and minerals your horse or pony needs, and which may be lacking in their domestic diet.</p>
