

Gold Label[®]

Gold Label is a family business, created and owned by a pharmacist, who has been involved in animal health for over 40 years.

	<p>Blacker than Black Rapid drying cosmetic hoof varnish. Apply with the brush provided to clean dry hooves for instant, lasting, black shine. Remove by Varnish Remover and apply a hoof preparation, such as Solid Hoof Oil Black.</p> <p>Clearer than Clear Rapid drying cosmetic clear hoof varnish. Apply with the brush provided to clean dry hooves for instant, lasting, clear shine. Remove by Varnish Remover and apply a hoof preparation, such as Solid Hoof Oil Natural.</p>
	<p>Equigloss</p> <p>Gives an instant shiny coat to show stock. Makes hair more pliable for faster and easier grooming. Helps prevent stains on the coat from tack, grass and urine. Contains no Mineral Oil.</p>
	<p>Magic Clean</p> <p>A dry shampoo that cleans without the use of water. Ideal for use during the winter or in an emergency at a show. Contains Tea Tree Oil.</p>
	<p>Mane Magic</p> <p>Magics wayward manes into place. Non-sticky. Leaves manes shiny, in place and much easier to manage. Secures plaited manes and tails.</p>
	<p>Mane, Tail and Coat</p> <p>Aids grooming and prevents tangles. Shines and conditions the mane, tail & coat. Use routinely or on the morning of the show.</p>

For more information on any of our range, please call Mike or Chris on 01844 355800 or visit our store at Manor Farm, Chinnor Hill, Oxon. OX39 4BG.

	<p>Flygon 500ml 2ltr 5ltr</p> <p>This insect repellent in a special long acting base is for amateur use against crawling and flying insects by direct application to the horses coat but avoiding the eyes. A ready for use application</p>
	<p>Itchgon Lotion 500ml</p> <p>A soothing natural application containing blended Neem Oil. Use to soothe scurfy skin especially in the summer months in the presence of irritation caused by insects.</p>
	<p>Glucosamine Plus 5000</p> <p>Provides building blocks for healthy tendons, cartilage and joints in horses of all ages. Very competitively priced for a potent mixture. Contains Glucosamine Sulphate, M.S.M., Vitamin C and Glucose. Two measures should be used for helping in the repair work, taking approximately three weeks, and then one measure should be used for maintenance for as long as possible. This is a natural product and does not have side effects. Highly digestible. A product with a magnificent track record.</p>
	<p>Garlic Powder</p> <p>Stronger than pure Garlic. A calibrated amount of Pure Garlic in a cereal base. Garlic has been shown to help maintain clear respiration. Use for competition horses is recommended. Pure Chinese Garlic contains a higher proportion of Allicin due to slow drying. Oil based preparations which are produced using heat are less effective and do not have the same activity. Our Garlic contains a scientifically calibrated amount of Chinese Garlic for your horse. Horses find this formulation much more palatable than pure Garlic and has the advantage of having a much higher Allicin ingredient than pure Garlic. Does not solidify in storage.</p>
	<p>Biotin</p> <p>Extensive scientific data and experience with thousands of users has proved that daily feeding of 15 mg of pure Biotin results in the formation of healthy keratin in most horses. This daily application is essential, preferably over several months, because a lower application, which may be nutritionally beneficial, does not have the effect of hoof strengthening. Supplements marketed as containing Biotin should be checked to ascertain the potency, which may not be sufficient for hoof health.</p>

Stockholm Tar Thick

Solid form of this traditional tar. An unadulterated natural anti-bacterial tar formed by the destructive distillation of the wood from trees of the pine family.
