

NAF DIGESTION

| | |
|---|---|
|  | <p>Pink Powder 700G-1.4KG-2.8KG</p> <p>Pink Powder contains live probiotic yeast and prebiotics to optimise gut function and balance the diet, allowing your horse to fully utilize his feed intake and gain perfect condition. Pink Powder is the most cost effective feed balancer you can buy. Plus, it helps your horse optimise his diet. So you feed less and save on hard feed.</p> |
|  | <p>Slimline 3KG</p> <p>If your horse is prone to weight gain or he carries too much condition its likely you restrict his diet and grazing. Now, with new Slimline, you no longer have to compromise on his important nutritional needs. Formulated especially for horses and ponies who struggle to keep weight off, Slimline is designed to make up the shortfalls of a restricted diet, and more. NAF recommend that Slimline is fed as part of a 'calorie controlled diet' combined with a correct management and exercise regime.</p> |
|  | <p>Biotics 300G-800G</p> <p>Helps to support a healthy gut environment and the natural movement of food (peristalsis) through the intestinal tract. Bulks out ingested food in the gut and encourages an even passage through the digestive system.</p> |
|  | <p>Haylage Balancer 1.8KG-3KG</p> <p>Comfort the unsettled horse, neutralize & absorb excess acids, soothe and settle the gut and help guard against gastric upset. Contains a unique digestive clay, includes antacids & live probiotic yeasts to optimise gut function. Also providing a broad spectrum of vitamins and minerals to balance the high fibre diet, Haylage Balancer is the only supplement your horse will need to maintain all round health and vitality.</p> |
