

	<p><b>Field &amp; Trial Crunchy</b> contains easy-to-digest chicken needed for strong muscles and teeth and bones. Specially formulated to meet the needs of all breeds of working dogs with moderate to high energy requirements. Chicken oil gives extra energy, while rice and cereals ensure the sustained stamina needed for a full day in the field. The combination of bio-available carbohydrates and proteins provides easily accessible energy.</p> <p>Field &amp; Trial Crunchy is also an ideal intermediate food for puppies of 8 – 18 months of age, providing the correct nutrition during this important growth period.</p>
	<p><b>Field &amp; Trial Duck &amp; Rice Hypoallergenic</b> has been specifically formulated to exclude ingredients that are known to cause sensitivities or allergies. It is free from wheat gluten, maize gluten, barley gluten, soya and dairy products.</p> <p>Made from the wholesome goodness of duck, rice, and naked oats, Field &amp; Trial Duck &amp; Rice also contains all the essential vitamins, minerals and carbohydrates needed for health, vitality and sustained stamina. As a valuable source of energy and to maintain healthy coat condition, Duck &amp; Rice is also coated in natural sunflower oil.</p>
	<p><b>Field &amp; Trial Maintenance</b> contains easy-to-digest chicken, providing the correct level of protein for the maintenance of strong muscles, teeth and bones. Specially formulated to meet the needs of working dogs, undertaking light to moderate work or in the closed season.</p> <p>High levels of top quality oils ensure that your dog's coat and skin are kept in great condition, whilst a mixed blend of cereals provides a good source of carbohydrate. A full balance of 27 vitamins and minerals promotes general good health</p>
	<p>Field &amp; Trial Muesli Mix is a tasty blend of ingredients, carefully formulated to meet the moderate energy requirements of adult dogs in light training or work, particularly during the closed season.</p> <p>Beef provides the high levels of protein needed for strong muscles and teeth and bones. Top quality oils give extra energy, whilst cereals, biscuits and vegetables boost the carbohydrate content guaranteeing the sustained stamina needed for a full day in the field. With a variety of tastes, textures and a delicious moist glucose syrup coating, even a fussy dog will tuck in and enjoy a full ration of Field &amp; Trial Muesli.</p>
	<p><b>Field &amp; Trial Puppy</b> is specifically formulated to meet the nutritional requirements of puppies and young working dogs during their first and most crucial stages of development. By feeding Skinner's <b>Field &amp; Trial Puppy</b> from weaning up to approximately nine months of age, you will ensure that your puppy receives all the proteins, carbohydrates, vitamins, minerals and oils essential for steady growth.</p> <p><b>Field &amp; Trial Puppy</b> is wheat-gluten free. It also contains MOS (Mannan Oligosaccharide), a natural digestion enhancer derived from vegetable sources, to help maintain a healthy digestive system. Generations of working dogs have been raised on Skinner's foods. <b>Field &amp; Trial Puppy</b> draws on unrivalled experience to meet the particular needs of all breeds of working dogs.</p>
