

Coolstance are world leaders in providing natural feeds with unique attributes for maintenance, health and performance of horses. Many of our products are based on the unique attributes of copra, coconut meal, and coconut oil.

They have developed the Stance Equine Feeding System to provide the horse owner with a logical and simple method for feeding horses. Our feeds are backed by science, and are formulated to give you and your horse a natural advantage.

	<p>COPRA</p> <p><b>CoolStance low NSC copra cool and calm horse feed</b></p> <p>CoolStance copra is a unique horse feed because it has low Non Structural Carbohydrate (NSC), and yet has a high digestible energy content. CoolStance is packed with 'cool' energy from coconut oil and fibre from copra meal. CoolStance is suitable for most horses and can be fed to maintain insulin sensitivity, ie normal insulin metabolism. CoolStance is the main feed in the Stance Equine Feeding System.</p> <p>CoolStance is made from the white part of the coconut, which has been dried, baked and ground. It is a totally natural product and is chemical and GMO free.</p>
