

Dengie is the UK's leading manufacturer of fibre-based horse feeds and the largest producer of alfalfa within the UK, the majority of which is used within our leading horse feed brands of Alfa-A and Hi-Fi.

	<p>ALFA A LITE</p> <p>ALFA-A LITE is made from pure alfalfa which has been chopped and dried at a very high temperature to lock in the natural goodness and ensure the very best quality product for your horse or pony. Alfalfa is an excellent natural source of antioxidants.</p>
	<p>ALFA A</p> <p>ALFA-A ORIGINAL is made from pure alfalfa which has been chopped and dried at a very high temperature to lock in the natural goodness and ensure the very best quality product for your horse or pony. Alfalfa is an excellent natural source of antioxidants.</p>
	<p>ALFA OIL</p> <p>ALFA-A OIL provides 12.5MJ/kg of slow-release energy which is equivalent to a conditioning or competition mix. ALFA-A OIL is made from pure alfalfa which has been chopped and dried at a very high temperature to lock in the natural goodness, with a dressing of soya oil for additional slow release energy. Alfalfa is an excellent natural source of antioxidants. Vitamin E (a natural antioxidant) has also been added to meet the increased requirements of horses fed higher levels of oil.</p>
	<p>HIFI LITE</p> <p>Hi-Fi LITE is made from alfalfa which is high temperature dried - locking in the natural goodness - and then blended with quality straw to provide an high fibre ration. Alfalfa is an excellent natural source of vitamins and minerals.</p>

For more information on any of our range, please call Mike or Chris on 01844 355800 or visit our store at Manor Farm, Chinnor Hill, Oxon. OX39 4BG.

	<p>HIFI GOODDER</p> <p>Hi-Fi GOOD DO-ER is a blend of alfalfa and quality soft straw lightly coated with molasses and contains spearmint oil. Vitamins and minerals have been added to provide a balanced diet when fed at the recommended levels. Hi-Fi Good Do-er can be used as a partial or complete hay replacer and as it is lower in calories than average hay and haylage, it can be an effective way to promote weight loss.</p>
	<p>HIFI ORIGINAL</p> <p>HIFI ORIGINAL is made from alfalfa which is high temperature dried - locking in the natural goodness - and then blended with quality soft straw to provide a high fibre ration. Alfalfa is an excellent natural source of antioxidants. Hi-Fi Original can also be used as a partial hay replacer.</p>
	<p>HIFI APPLE</p> <p>Hi-Fi Original with Apple contains real apple pellets to provide a really tasty fibre feed for your horse or pony. The apple pellets in Hi-Fi Original with Apple contain apple skins which is where the natural antioxidants are mostly found. They complement the antioxidants found naturally in alfalfa to give a wide range of health benefits. This is equivalent to us eating our 5 portions of fruit and vegetables of different colours a day to ensure we receive a wide range of antioxidants.</p>
	<p>HIFI SENIOR</p> <p>Hi-Fi SENIOR is a blend of chopped alfalfa with grasses which have been high temperature dried to lock in the natural goodness and ensure the very best quality product. Alfalfa is an excellent natural source of antioxidants. Hi-Fi Senior is ideal as a hay replacer for older horses and ponies who can no longer chew the longer length of hay or haylage but can also be used for performance horses.</p>
