

Dodson & Horrell are committed to manufacturing the highest quality horse feeds, which they have been successfully carrying out for nearly seventy years. Nutritionally sound products which help promote the health and well-being of your horse or pony.

	<p><b>LEISURE MIX</b></p> <p>Leisure Mix is ideal for all adult horses and ponies that are either at rest or in light work and hold their weight well. If your horse or pony starts to do more work and requires a slightly higher energy diet.</p>
	<p><b>HIGH FIBRE NUTS</b></p> <p>High Fibre Nuts are ideal for all adult horses and ponies that are either at rest or in light work and hold their weight well. If your horse or pony starts to do more work and requires a slightly higher energy diet, we recommend Pasture Mix or Cubes.</p>
	<p><b>PASTURE MIX</b></p> <p>Pasture Mix is an incredibly versatile product and one of the most popular on the market. It is a delicious, flaked cereal muesli formula and is ideal for horses and ponies in light-medium work, it can also be fed to horses in medium-hard work and the feeding levels should be adjusted accordingly.</p>
	<p><b>PASTURE CUBES</b></p> <p>Pasture Cubes are ideally suited to horses and ponies in light-medium work but they can also be fed to horses in medium-hard work and the feeding levels should be adjusted accordingly. If you are looking for a similar nutrient value to Pasture Mix but prefer a cube then Pasture Cubes provide the answer.</p>
	<p><b>SIXTEEN PLUS MIX ALSO IN CUBES</b></p> <p>Sixteen Plus Mix is ideal for older horses and ponies that are starting to lose weight or condition, whether they are active or retired. If your horse or pony is continuing to do well on his current diet, we recommend you continue feeding this until he needs a veteran-specific feed.</p>

	<p><b>BUILD UP MIX ALSO IN CUBES</b></p> <p>Build Up Conditioning Mix is ideal for horses and ponies that have lost or are prone to losing weight and condition. Best results will be seen when fed in conjunction with the correct exercise programme.</p>
	<p><b>BARLEY RINGS</b></p> <p>Barley Rings are a convenient, fuss free addition to an existing feed and can be fed dry or soaked. Barley is renowned for its conditioning properties and has been widely used in situations where horses have a requirement to gain weight or in situations where additional energy is required.</p>
	<p><b>COMPETITION MIX</b></p> <p>Formulated using the latest international research, Competition Mix is a good source of quality protein and benefits from added B vitamins and electrolytes. It is ideal for horses and ponies that are competing and require instant bursts of energy.</p>
	<p><b>STAYPOWER MUESLI ALSO IN CUBES</b></p> <p>Formulated using the latest international research, Staypower Muesli provides energy from oil and fibre, is a good source of quality protein and benefits from added B vitamins and electrolytes. It is ideal for horses and ponies that are naturally quite highly strung or that are competing in stamina disciplines.</p>
	<p><b>ERS PELLETS</b></p> <p>One of the major metabolic problems affecting performance horses is equine rhabdomyolysis syndrome (ERS). This syndrome encompasses all the various terms including tying up and azoturia and some also include the genetic disorder polysaccharide storage myopathy (PSSM) in this syndrome.</p>

For more information on any of our range, please call Mike or Chris on 01844 355800 or visit our store at Manor Farm, Chinnor Hill, Oxon. OX39 4BG.

	<p><b>RACEHORSE CUBES</b></p> <p>Racehorse Cubes are ideal for racehorses in full work fed on hay or haylage. The mix equivalent is Racing Diet and if you find a horse requires a lower starch ration, feed ERS Pellets or Staypower Cubes, both of which provide energy from fibre and oil. Formulated specifically for racing thoroughbreds, this highly palatable cubed ration provides quick releasing energy required for fast work and replenishes glycogen stores following exercise.</p>
	<p><b>MARE AND YOUNGSTOCK</b></p> <p>Mare &amp; Youngstock is designed specifically for Native, Part-Bred and Warmblood broodmares, stallions and youngstock (1-3 years) that maintain weight easily and it is the ideal follow-on from Foal Mix. Feeding a broodmare in foal or a young horse can be challenging, especially when you are faced with a horse that maintains weight and condition well, a situation which Mare &amp; Youngstock is perfect for.</p>
	<p><b>STUD DIET ALSO IN CUBES</b></p> <p>Scientifically formulated for Thoroughbred broodmares &amp; stallions Stud Diet is a traditional coarse mix of highly digestible cereals that has been formulated for Thoroughbred broodmares and stallions. It is designed to provide optimum levels of all the essential nutrients required to support all aspects of breeding. It also contains our unique scientifically formulated package of ingredients including omega fatty acids, organic antioxidants and mannan oligosaccharides to nutritionally support fertility, foetal development and colostrum quality.</p>
	<p><b>JUST GRASS</b></p> <p>A high temperature dried natural grass for adding to concentrate feed or using as a partial forage replacer. Containing no added molasses and high in fibre, Just Grass encourages chewing and saliva production, which helps to buffer the acid in the stomach.</p>
	<p><b>SAFE AND SOUND</b></p> <p>As a company we remain committed to research into laminitis and the work we have done to date has allowed us to formulate this tailored diet that contains a host of beneficial ingredients. Following extensive research, Safe &amp; Sound was developed to provide optimal nutrition for horses and ponies at risk from laminitis. Safe &amp; Sound is a complementary feedingstuff specifically for adult horses and ponies prone to laminitis.</p>
